STATEMENT OF ADDED INVENTOR, JANE CLAIRE WHITE,  
FOR CORRECTION OF INVENTORSHIP PURSUANT TO 37 CFR §1.48

Director, U.S. Patent and Trademark Office  
Washington, D.C. 20231

Sir:

I, JANE CLAIRE WHITE, hereby declare that I am a co-inventor with John DeSalvo, Michael Lange, and Scott Bricker of the above-identified patent application directed to the OPTICALLY AMPLIFIED RECEIVER. This error in inventorship occurred without deceptive intention on my part or the part of John DeSalvo, Michael Lange, and Scott Bricker. I had worked closely with Randall K. Morse in the initial development of a structure and circuit for optically amplifying signals to deliver a clean current source to an injection laser diode as part of an optically amplified receiver that optimizes a system and is incorporated into a single assembly.

Later, the listed inventors worked further on our invention by designing an optically amplified receiver with an optical preamplifier, bandpass filter, PIN detector and amplifier circuit. Because the listed inventors had later worked together to reduce to practice the invention when the

application was prepared, only the inventors, John DeSalvo, Michael Lange and Scott Bricker, were listed. After filing the application, I learned that I was not listed as an inventor with my co-inventor, Randall K. Morse. I later discussed this inventorship issue with the appropriate patent attorneys, who stated that they would correct the inventorship.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
